

Name _____

Date _____

Planet Earth: From Pole to Pole

Tundra

Organism	Adaptation	Fact
Emperor Penguin		
Polar Bear		
Caribou		

What is a predator of caribou? _____

Taiga

Organism	Adaptation	Fact
Conifer Tree		

Deciduous Forest

Organism	Adaptation	Fact
Broad-leafed trees		
Amur leopard		

In the deciduous forest, what must the inhabitants do in the wintertime to survive? _____

What causes seasons on Earth? _____

Tropical Rain Forest

The tropical rain forest covers ____% of the Earth's surface and contains ____% of the Earth's plants and animals.

How is the canopy (top) of the tropical rain forest different from the floor (bottom)? _____

Organism	Adaptation	Fact
Birds of Paradise		

Ocean

Organism	Adaptation	Fact
Great White Shark		

Desert

What happens to the Kalahari Desert each year? _____

What causes problems for the elephant herd and their migration toward water? _____

Organism	Adaptation	Fact
Elephant		
Baboon		
Hunting Dogs		

Name three other organisms that migrate toward the fertile Okavango delta.

Describe the hunting strategy of the hunting dogs vs. the impala.
